

Student Career Coaching – Automated at Scale

A future-ready workforce is at the tip of our fingers.

Schools can measurably develop and sustain essential employability attitudes, skills and knowledge in students preparing to enter the workforce with **Ringorang®**, a software solution that transforms learning into everyday habits students can activate to get jobs and build their careers.

WHAT EMPLOYERS WANT

When it comes to workforce readiness, employers want entry-level applicants who have the attitudes, skills and knowledge needed to create value in the workforce.

WITH RINGORANG®

Schools can prepare students with these skills without adding to the curriculum.

- No new courses to add
- No new employees to hire
- No time taken from daily schedules

JOB READY PROGRAM

Our off-the-shelf job-ready program builds students' employability and job acquisition skills using motivational nudges, micro-tutorials and quiz-style questions that are fun to interact with – and as easy as 1, 2, 3! Students can even win awards, badges and prizes!

Ready to ramp up your workforce initiatives?
